

34-th European Conference on Laser Interaction with Matter (ECLIM2016)

September 18-23, 2016, Moscow (Russia)

September, 19 (Chairs: N. Borisenko, O. Krokhin, N. Andreev, A. Kuznetsov) - Monday

| | | |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------|----------|
| 09:00 - 09:30 | Registration | |
| 09:30 - 10:00 | Opening ceremony. Welcoming speeches by Strikhanov and Krokhin. | |
| 10:00 - 10:30 | Starodubtsev. Recent experimental results on warm dense matter generation and proton acceleration using the high-power PEARL facility | Mo1_Inv |
| 10:30 - 11:00 | Nazarov. Sub-Micrometres and Nanometres Low-Density Polymeric Foams for Laser Targets | Th1_Inv |
| 11:00 - 11:30 | Zmitrenko. Direct drive targets at multi-beam irradiation by megajoule laser pulse | Mo3_Inv |
| 11:30 - 12:00 | COFFEE | |
| 12:00 - 12:30 | MIQUEL. LMJ-PETAL facility: first experiments and program overview | Mo4_Inv |
| 12:30 - 13:00 | Sharkov. Inertial Confinement Fusion Energy Experiments at International FAIR | Mo5_Inv |
| 13:00 - 13:30 | Yogo. Anomalous Electron Heating and Ion Acceleration with High-Contrast laser pulses on LFEX | Mo6_Inv |
| 13:30 - 14:00 | Bel'kov. Laser Facility Development and Principle results during recent 5 years | Mo8_PI |
| 14:00 - 15:30 | LUNCH | |
| 15:30 - 16:00 | Rosmej O. Experiments on increased ion stopping in laser produced plasmas | Mo9_Inv |
| 16:00 - 16:30 | Faenov. X-Ray Photopumping of Exotic States of Matter by Relativistic Laser Plasma in the Radiation-Dominated Kinetic Regime. | Mo7_Inv |
| 16:30 - 17:00 | Egorov. Laser Technique for the Investigation of Single Event Effects in Integrated Circuits | Mo10_Inv |
| 17:00 - 20:00 | Coffee POSTERS #1 until 20.00 | |
